The application isn't limited to process certain number of renders a day. Use it as long as you desire without any limitations.

Epique Cloud

No extra software or app needed. AI Virtual Staging is now available on Epique Cloud for all our Epique Agents to Access for \$0!

Frequently Asked Questions

What is virtual staging?

Virtual staging is a digital process where a room's appearance is enhanced with furniture and décor through technology. Our application utilizes AI to help real estate agents create appealing, staged rooms from photos of empty or furnished spaces.

How do I access and upload a picture for staging?

Navigate to the Epique Cloud Dashboard and visit the "A.I. Assistant" section. Click "Virtual Staging". You'll see the ability to upload a photo from your device to get started.

Can I remove existing furniture from a photo?

Yes, our application allows you to choose whether to keep or remove existing furniture in a photo. The AI will handle the removal process if you opt to have furniture removed.

How do I select the room type and style?

Upon uploading your photo, you will be asked to select the room type (e.g., Living room, Bedroom) and the desired style (e.g., Modern, Luxury). These choices guide the AI in creating appropriate staging variations.

How does the application create variations?

Once you select the room type and style, and decide on furniture removal, the AI initially generates 3 variations. You can continue generating up to 20 different staging variations of the original photo.

Can I download my staged photos?

Yes, you can download any of the staged images in high resolution directly from the application for use in your real estate listings or other marketing materials by clicking the "Download" button while viewing your staged variations.

How can I view all my staged photos?

You can view all your photos and generated staging variations by clicking the "View my pictures" button within the Virtual Staging application.

What is the cost of using virtual staging?

Who do I contact for support if I have issues?

If you encounter any issues or have questions, please contact our customer service team at support@epiquerealty.com
